

# The Coffee Story of CoffeeVietnam : From Heartland to Your Cup

A journey through volcanic soils, expert hands, and generations of passion — discover how AeroCo transforms Vietnam's finest beans into an extraordinary cup.

[Explore Our Story](#)

# A Legacy Rooted in the Land of Dak Lak

Coffee's journey begins in the lush, volcanic highlands of Dak Lak — Vietnam's most celebrated coffee-growing region. Nestled near Buon Ma Thuot, the self-proclaimed "Coffee Capital of Vietnam," our farms benefit from rich basalt soils, ideal elevation, and a tropical climate that nurtures both premium Arabica and bold Robusta varieties.

More than geography, it's a philosophy: a deep, enduring respect for the land and its traditions drives every decision we make — from seed to cup.

## Why Dak Lak?

- Volcanic basalt soils rich in minerals
- Altitude of 500–800m above sea level
- Distinct wet and dry seasons for optimal cherry development
- Home to Vietnam's most storied coffee heritage

# Passionate Farmers and Expert Care

Great coffee begins long before the roast — it starts with the people who tend the land with knowledge, patience, and love.

## Science-Backed Cultivation

Our agronomists from the Tây Nguyên Agricultural Science Institute guide every stage of growth, ensuring the finest conditions for flavor development.

## Selective Cherry Harvesting

Only ripe, red cherries — over 95% of each harvest — are handpicked, guaranteeing peak sweetness, complexity, and freshness in every batch.

## Organic & Eco-Friendly Methods

We protect biodiversity and soil health through certified organic practices, ensuring the land remains fertile and vibrant for generations to come.

# From Cherry to Bean: The Art of Processing

Post-harvest, every cherry enters a precise, controlled processing chain. Careful sorting removes imperfect fruits, followed by washing and slow-drying in monitored environments that preserve the bean's natural character. Each step is meticulously logged, ensuring full transparency and consistent quality from batch to batch.

01

---

## Sort & Wash

Cherries are sorted by density and washed to remove defects.

02

---

## Dry & Control

Beans are dried in controlled conditions to target moisture levels.

03

---

## Store & Preserve

Green beans rest in optimal humidity and temperature until roasting.

# Crafting the Perfect Roast

Roasting is where science becomes art. CoffeeVietnam's master roasters develop precise profiles for each origin and blend, coaxing out the unique soul of every batch.

## Arabica Profile

Sweet, floral, and bright — Arabica beans are roasted to accentuate their delicate fruit notes and silky body.

## Robusta Profile

Bold, earthy, and full-bodied — Robusta is roasted to amplify its deep, chocolatey richness and powerful finish.

## Signature Blend

Our flagship blend marries both varieties for a smooth, sweet, and aromatic experience that captures the very essence of Dak Lak's terroir.

# A Commitment to Sustainability and Community

## Our Pillars of Responsibility

- Fair wages and long-term support for local farming families
- Eco-friendly, biodegradable packaging materials
- Active reforestation and biodiversity restoration programs
- Waste reduction at every stage of production

At VietnamCoffee, sustainability isn't a marketing phrase — it's woven into every decision. We champion fair wages, invest in our farmers' communities, and actively restore the natural ecosystems surrounding our farm. From biodegradable packaging to reforestation initiatives, our coffee's journey is designed to leave the land better than we found it.

# The Unique Flavors of CoffeeVietnam

From soil to shelf, CoffeeVietnam product range celebrates the full spectrum of Vietnamese coffee tradition — offering something extraordinary for every palate.

## Single-Origin Green Beans

Unroasted, traceable beans for specialty roasters — pure expression of Dak Lak's unique terroir.

## Roasted Specialty Beans

Expertly roasted Arabica and Robusta, ready to brew — bright, bold, and deeply aromatic.

## Premium Instant Coffee

All the depth of Vietnamese coffee heritage in a convenient, travel-ready format — no compromise on flavor.

# Experience Coffee Vietnam : More Than Just Coffee

Come to Buon Ma Thuot and step into the world where our coffee is born. See passion meet precision, firsthand.

## Immersive Farm Tours

Walk our fields with expert guides, learn the full journey from cherry to cup, and witness sustainable farming in action across the Dak Lak highlands.

## Cupping & Tasting Workshops

Refine your palate through expert-led cupping sessions, exploring the distinct flavor notes of our Arabica and Robusta single-origins and signature blends.

## Community & Culture

Join our growing community for exclusive access to new seasonal blends, sustainability events, and celebrations of Vietnam's rich coffee heritage.

# Our Vision for the Future

VietnamCoffee & JP.Papasito is on a mission to place Vietnamese specialty coffee firmly on the global map — not by chasing trends, but by deepening roots. We are investing in continuous innovation, next-generation eco-friendly practices, and the empowerment of local farming families who are the true heart of our story.

Our vision: to make CoffeeVietnam & JP.Papasito a globally recognized symbol of Vietnam's extraordinary coffee heritage, trusted and loved by connoisseurs on every continent.

## Global Recognition

Elevating Vietnamese specialty coffee to world-class status.

## Eco Innovation

Pioneering sustainable practices across the entire supply chain.

## Farmer Empowerment

Strengthening the livelihoods of Dak Lak's farming communities.

# Savor the Story, Taste the Passion

"Every cup of CoffeeVietnam & JP.Papasito is a living testament — to the volcanic soils of Dak Lak, the hands that harvested each cherry, and the generations of tradition poured into every roast."

This is more than coffee. It's a story of dedication, heritage, and an unbreakable bond between people and land. When you sip JP.Papasito Coffee, you taste Vietnam — its highlands, its farmers, its soul.

## Crafted with Passion

Every step, from farm to cup, is guided by genuine love for the craft and respect for tradition.

## Brewed for Excellence

Uncompromising quality standards ensure each batch delivers a memorable, authentic experience.

## Shared Worldwide

Vietnam's finest coffee heritage, now available to connoisseurs and curious palates around the globe.
